

## MATH 101.503: Intermediate Algebra Part I (First 8 weeks, Spring 2017)

Instructor: S. Garde	Office Hours: T-Th 12:15 – 1:15; also by appt. Office Room: Math Center or LRC-172
Instructor Email: sgarde@unm.edu	Telephone: 925-8912
Class Time: 1:30 p.m. – 2:45 p.m.	Meeting Days/Location: Tuesdays/Thursdays SCC-200
ALEKS Customer Support Email: <a href="http://support.aleks.com">http://support.aleks.com</a>	ALEKS web: <a href="http://www.aleks.com">www.aleks.com</a> (714) 619-7090
ALEKS Course Code: GR3U6-3RTTW	Fin. Aid Access code (two weeks only-can only be used for one ALEKS course/semester): CFEE0-EAD42-267DB-6CE91

**Content:** You will study linear equations and inequalities, applications and problem solving with linear equations, linear functions and the graph of a line, percent, perimeters, and areas of simple geometric shapes.

**Objectives:** Math 101 is the pre-requisite to Math 102. Once you complete Math 101, you can begin Math 102. Math 101 and Math 102 are needed to enroll in Math 129 or Stat 145. If you need to take Math 121 (College Algebra) or Chemistry 111 you must take Math 101, 102, and 103. This course is designed to let you work at your own pace (we encourage self-acceleration) while providing you with ample resources and support. Please try to finish the course early, so that you may be able to complete Math 102 and possibly Math 103 by the end of the term.

This course focuses on fundamental tools and concepts of algebra for non-technical majors. While you will receive one credit toward graduation for successfully completing Math 101, this course is not accepted to satisfy UNM core requirements.

### **Math 101/102/103 COURSE STUDENT LEARNING OUTCOMES:**

Upon successful completion of the course, these outcomes must be achieved:

- 1. Communication:** Students will use proper mathematical notation and terminology to communicate mathematical phrases.
- 2. Solve various kinds of equations:** Students will solve a variety of equations from systems of two linear equations, to polynomial, rational and quadratic.
- 3. Working with functions:** Students will correctly use function notation and be able to find the value of a function for a given domain.
- 4. Working with graphs:** Students will sketch graphs of linear, quadratic and exponential functions.
- 5. Modeling and solving real-world problems:** Students will use formulas and equations to solve real-world problems.

**Registration:** Ideally, you should register for Math 101 in the first 8 weeks, Math 102 in the second 8 weeks (with the same instructor and same section number), and if you finish those two early, you can add Math 103.

**Materials:** You are required to purchase: (1) An access code for ALEKS software (18 weeks is recommended), and (2) a notebook – This can be a spiral or binder containing lined paper and/or graph paper. We will require you to write out your notes/work in your notebooks. This include regular notes/work, as well as the problems given during an assessment. You must bring this notebook to class with you. There is no other text for this course.

**Calculators:** There is an online calculator in the ALEKS system. Ideally, no other calculator should be used while you are working on ALEKS.

**Attendance Policy:** If a student misses 2 classes in the first week, 3 consecutive class periods, or 5 classes in total, the student may be dropped from the class. Tardiness or early departure may be regarded as an absence. It is the student's responsibility to withdraw from the course if he/she stops attending.

**Weekly Progress Requirement:** You are required to be in class during your regularly scheduled class time. You are also required to **master at least 17 topics each week** in learning mode.

**Five hours a week is the minimum amount of time you must spend on ALEKS. You should plan on spending time in ALEKS OUTSIDE of class, as well as in class.**

**Assessments:** ALEKS will periodically provide you with progress assessments over the material you have been studying. These assessments cannot be skipped and will not affect your grade. They provide the software, your instructor, and you with detailed information about your progress, and they will allow ALEKS to continue to provide you with the material you are ready to learn. Although assessments do not affect your grade, they do place you in the course, so please be careful as you take them. You have the potential to gain or lose topics while taking an assessment.

### **Course Grading:**

#### **GRADE WEIGHTINGS:**

<b>Attendance, Participation, ALEKS progress +Tutoring Time (5 hrs/wk)</b>	<b>20%</b>
<b>Topic Mastery</b>	<b>10%</b>
<b>Tests, Quizzes, Activities</b>	<b>20%</b>
<b>Cumulative Final Exam*</b>	<b>50%</b>

The Final Exam is a paper-pencil exam you must take in class or at the Testing Center. **You may use a 3 inch by 5 inch note-card, and a scientific calculator while you take the exam.** Cell phones, laptops, tablets, or any device with access to the internet are prohibited in the testing area. **You must show an ID to take your final exam.**

The Final Exam can be taken only when you have completed all material in the learning mode for Math 101 (100% completion of your learning pie). You must finish the exam in one sitting within a maximum time of 2 hours. If needed, your instructor may offer you to take the final as two parts of one hour each in two different days.

**You must get a score of 80% or better on this exam to pass the course and receive a grade. Final exam can be retaken once only (as a second trial) within the course time.** The retake must happen only after the student reviews the mock final again. Student will receive a grade of NC (No credit) if an 80% score or better was not achieved by the second trial.

**An Important Remark:** This course is a self – accelerating course, meaning you can finish your topics and final exam before the end of first 8 weeks. If you do not finish by the final exam date, you will be dropped from Math 102, and recommended to sign up for a second 8 weeks Math 193 course (1 credit hour) especially if you need to substitute for the one credit hour you lost by dropping Math 102.

**Support Services:** The Valencia Campus Library provides a quiet atmosphere for study and is an excellent resource for supplementary materials. Students can schedule appointments for free tutoring in the Learning Commons at 925-8907.

**Important Dates:**

01/16 (Monday) Martin Luther King, JR. Day (NO Classes)

01/27 (Friday) Last day to add courses or change sections

02/03 (Friday) Last Day to Drop without a grade, Last Day to Drop with a Refund

02/10 (Friday) Last day to change grading options

**03/16 (Thursday) Last date for M101 Final Exam**

***March 12-19 Spring Break – No Classes***

04/ 14 (Friday) Last day to withdraw without the Dean’s approval

05/ 05 (Friday) Last day to withdraw with the Dean’s approval

**Student Expectations:** Students are expected to conduct themselves in a polite, courteous, professional and collegial manner. Cell phones must be set on silent. Please step into the hall if you need to take a call during class. Cell phones must be turned off during exams.

**Disability Statement:** If you have a documented disability, please provide me with a copy of your letter from Equal Access Services as soon as possible to ensure that accommodations are provided in a timely manner. The Equal Access Office can be reached at 925-8560.

**UNM’s Policy on Academic Honesty:** Each student is expected to maintain the highest standards of honesty and integrity in academic and professional matters. The University reserves the right to take disciplinary action, including dismissal, against any student who is found responsible for academic dishonesty. Any student who has been judged to have engaged in academic dishonesty in course work may receive a reduced or failing grade for the work in question and/or for the course. Academic dishonesty includes, but is not limited to, dishonesty in quizzes, tests or assignments, claiming credit for work not done or done by others; hindering the academic work of other students; and misrepresenting academic or professional qualifications within or outside the University.

**Title IX Statement:** In an effort to meet obligations under Title IX, UNM faculty, Teaching Assistants, and Graduate Assistants are considered “responsible employees” by the Department of Education (see pg 15 - <http://www2.ed.gov/about/offices/list/ocr/docs/qa-201404-title-ix.pdf>). This designation requires that any report of gender discrimination which includes sexual harassment, sexual misconduct and sexual violence made to a faculty member, TA, or GA **must** be reported to the Title IX Coordinator at the Office of Equal Opportunity (oeo.unm.edu). For more information on the campus policy regarding sexual misconduct, see: <https://policy.unm.edu/university-policies/2000/2740.html>
