Course Description

In this class, students will be introduced to the fundamental vocabulary, media, and history of the visual arts, illustrated by examples drawn from many cultures and across many centuries. We will begin with a general overview of the subject, including basic concepts and themes that shed light on the continuity of the artistic enterprise across the span of human experience. We will study the visual elements from which art is made, including how artists use these elements and how the artists' use of visual elements affects our experience of looking at art. We will examine both two-dimensional and three-dimensional media, including drawing, painting, printmaking, camera and computer arts, graphic design, sculpture, installation, crafts, and architecture. Selected works will be examined in context, including the history of the time and place in which they were created, as well as their function, patronage, and the character and intent of individual artists.

Learning Objectives

1. Students will define the elements from which art is made, including line, shape, mass, color, light, texture and pattern, space, time and motion.
2. Students will understand and interpret the principles of design, including unity and variety, balance, emphasis and subordination, scale and proportion, rhythm.
3. Students will understand and identify a wide variety of techniques and materials that artists use to make art.
4. Students will become proficient at seeing and analyzing individual works of art, evaluating criteria such as the artist's intention, the formal visual elements, and media used
5. Students will analyze and assess art from multiple points of view
6. Students will develop an understanding of the cultures and individuals that produced various artworks and art traditions
7. Students will acquire a basic understanding of a wide variety of artistic traditions including when and where they developed, and the basic style characteristics that identify those traditions
8. Students will develop a familiarity with controversies surrounding restoration, censorship, public art, and the removal and display of artworks from tombs
9. Students will view artworks with increased confidence and a broader understanding of what they see

My Commitments

1. The classroom should be a place of excitement, curiosity, and joy. I will do my best to keep boredom to a minimum.
2. You have chosen to be here, therefore, I serve you and your learning. As your instructor, I will trust and respect you.
3. My role is not to convince you of my opinions, but to help you form your own. Art is subjective! I will do my best to never speak over you or make you feel like I do not value your opinions.
4. If following your interest in a project or assignment brings your work outside of the parameters of that assignment, your passions come before my guidelines. I will do my best to support your explorations and not penalize you for being creative.
5. I will never ask you to compete against one another. There is no limit to how many As or Bs will be given, and differences of opinions are encouraged (as long as we respect and support each other).
6. While it is important for you to learn the vocabulary of art and art making, I will never penalize the use of common language or references to popular culture. Art is made in the world, not above it.
7. I will never force anyone to participate in ways that make them uncomfortable. I will do my best to make space and time for everyone to contribute in whatever way they need.
8. I will never judge or criticize you for ways that you differ from me, whether that be race, gender, sexuality, religion, nationality, class, politics, or culture. I will do my best to not only respect, but encourage you to explore, share, and express any differences in your life.
9. I am always learning and trying to be a better teacher. If you ever want to share with me any ways that I could make this learning experience better for you, I will greet that with gratitude!

Any absences must be either pre-approved by the professor (via email in advance of the absence) or the student must present a doctor's note in the week following the absence. Students are still held responsible for all academic work required or performed during their absence regardless of the reasons for those absences. Class participation influences your grade heavily. Participation includes:

- Complete and comprehend the weekly lecture
- Contribute to all discussions in class, including taking notes and asking questions during lecture and student presentations
- Complete REVEL assignments successfully and within the timeframe allotted
- Present chosen chapter research thoroughly, with visual aids
- Prepare for and complete all quizzes/exams

Student Research Presentation

Students will choose one specific topic from one chapter from our REVEL textbook to research and present to the class. Each student will choose 1 chapter on which to focus by 2/2. The specific topic must relate to the themes and information in the chosen chapter, but will vary depending upon the interests of the student. The specific topic could be a particular artist or artwork mentioned in the chapter, a history of a particular medium or art movement, or how the terms learned in the chapter

apply to everyday life. Each presentation will require an accompanying slideshow of relevant images, a bibliography, and prepared discussion questions to be shared with the class. The presentation should last at least 10 minutes, not including questions and discussion.

Grading Policy

- Grading is based on a timely completion of course participation requirements, the quality of individual critical development, and a personal commitment to your work. Personal commitment involves regular participation, consistent effort, completion of work, and the general willingness to try.
- No full credit will be given for any late work. If work is not delivered on time, an automatic 0 points will be given. No late discussion postings or quizzes will be accepted. Full credit will never be issued for late work except in extreme cases and with prior notification – no exceptions.
- Incompletes are rarely issued. If 75% of the semester's work and participation have been completed with a satisfactory grade, an incomplete may be issued if the student has a pressing and unforeseen need.
