**Inclusive Access:** For additional information, you may email [inclusiveaccess@unm.edu](mailto:inclusiveaccess@unm.edu) or follow this link: [https://bookstore.unm.edu/t-1UNM\\_InclusiveAccess.aspx](https://bookstore.unm.edu/t-1UNM_InclusiveAccess.aspx)

## Technical Considerations

### Online Course Requirements

- A high-speed Internet connection is highly recommended.
- Supported browsers include: Chrome, Internet Explorer, Firefox, and Safari. To check your browser(s), use this link: [https://help.blackboard.com/Learn/Student/Getting\\_Started/Browser\\_Support/Browser\\_Checker](https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support/Browser_Checker)

Also the UNM IT Department, offers a variety of free applications including Symantec Endpoint Protection Antivirus Software. To download a copy, simply to go <http://it.unm.edu/download/> and log in using your UNM NetID and password.

Any computer capable of running a recently updated web browser should be sufficient to access your online course. However, bear in mind that processor speed, amount of RAM and Internet connection speed can **greatly** affect performance.

Online courses perform best on a hard-wired, high speed Internet connection. Those using Wi-Fi connections may experience longer page load times and much slower performance when accessing their online course. Additionally, using a Wi-Fi connection may cause reception problems during Zoom Meetings. UNM offers free high-speed Internet access at [UNM's Computer Pods](#)

### UNM Canvas Tracking

UNM Canvas automatically records all students' activities including: your first and last access to the course, the pages you have accessed, the number of discussion messages you have read and sent, chat room discussion text, and posted discussion topics. This data can be accessed by the instructor to

evaluate class participation and to identify students having difficulty.

## Course Interruptions and Scheduled Maintenance

### In the Event of an Unexpected Course Interruption

If UNM Canvas is down for 4 hours or more on the day an assignment or exam is due, the instructor will notify students of a new due date.

### Scheduled Maintenance

UNM Canvas has a weekly scheduled maintenance window from 4:30 am – 5:30 am every Saturday when UNM Canvas is not available. In addition, UNM IT conducts general system maintenance that affects multiple systems on campus, including UNM Canvas a few times a year, usually before the start and near the end of academic terms. Announcements for these periodic maintenance windows are normally posted in UNM Canvas two weeks ahead of time to notify users of planned outages. Please remember to plan ahead as you will not have access to UNM Canvas during these outages.

### Student Course Access at the End of Term/Semester

Canvas is available for 2 weeks after the end of the course. After 2 weeks students will no longer have course access.

## Assessment and Grading

Students have one attempt on homework and quizzes. I will accept homework and assessments late, however students will lose 20% of their grade for each day late. No work will be accepted after December 17, 2022. Discussion Board Postings will NOT be accepted late.

## Course Expectations & Ground Rules

### Course Schedule

See course schedule posted in UNM Canvas. You will find the schedule on the Syllabus/Schedule Module.

### Inclement Weather, Course Interruptions and Scheduled Maintenance

#### Inclement Weather

Since our homework and assessments (including the final exam) are online, inclement weather should not affect the completion of exams.

#### In the event of an unexpected course interruption:

If Canvas is down for more than 4 hours on the day a homework, assessment or final is due, email the instructor at [cbernier@unm.edu](mailto:cbernier@unm.edu) and let her know the problem you are encountering. If we confirm that the system was down, **the due date will automatically be extended for 24 hours.**

### Instructor Drop and Withdrawal Policy

The instructor may drop a student, if the student does not complete the first week/module's activities by the end of the first full week of the course. The instructor may also drop a student during the term, if a student fails or misses assignments, an exam and does not contact the instructor within one week of the failed/missed assignment or exam. Do not count on me dropping you, however. Ultimately, it is your responsibility to drop the course if you are no longer interested in pursuing it.

Students are responsible for completing all courses in which they are enrolled. Changes in enrollment, drops or withdrawals must be officially processed. A student who does not follow proper withdrawal procedures may be given a failing grade and is responsible for tuition charges associated with the course. Deadlines for course withdrawals are established by the UNM Registrar's Office and may be found at <http://registrar.unm.edu/>. Any student considering dropping should first consult with the instructor and academic advisor.

### Class Participation

I want all of my students to succeed! Just because the class is a distance learning class does not mean we are disconnected.

### Required Discussion Posting Information

Substantive initial posts and responses to a classmate's post are expected by Sunday night at 11:59 PM.

## Netiquette Ground Rules

See Netiquette Ground Rules document in your course on the 'Syllabus/Schedule/Contact Info' page.

Use proper grammar and spelling (type your postings in WORD first in order to use spell check then copy and paste into UNM Canvas - this will also save you retyping it if should happen in UNM Learn/Blackboard with your posting).

## Academic Dishonesty

Each student is expected to maintain the highest standards of honesty and integrity in academic and professional matters. The University reserves the right to take disciplinary action, up to and including dismissal, against any student who is found guilty of academic dishonesty or otherwise fails to meet the standards. Any student judged to have engaged in academic dishonesty in course work may receive a reduced or failing grade for the work in question and/or for the course. ***Academic dishonesty includes, but is not limited to: dishonesty in quizzes, tests, or assignments; sharing your NetID or MyLab IT login credentials, claiming credit for work not done or done by others; hindering the academic work of other students; misrepresenting academic or professional qualifications within or without the University; and nondisclosure or misrepresentation in filling out applications or other University records.***

*Students should be familiar with UNM's [Policy on Academic Dishonesty](#) and the [Student Code of Conduct](#), which outline academic misconduct, defined as plagiarism, cheating, fabrication, or facilitating any such act.*
