Ha means sun, Tha means moon. The word yoga means yoke, union, to unite or make whole. Yoga comes to us from India. Hatha Yoga is a system of postures, breathing and relaxation designed to bring balance and rejuvenation to the body's systems. These systems include muscular, circulatory, respiratory, digestive, eliminative, endocrine, nervous, pranic, and mental. It is in this sense a holistic approach to the body. Yoga is not competitive or particularly goal oriented. It is an ongoing process, an individual journey inward. Practice awareness of the body, paying attention to its feedback. Work with your own mental, emotional, and physical resistance, which may change from day to day, and moment to moment. Take a friendly approach to the body, move slowly and with control, never bounce or push into areas of pain. Yoga increases stability, strength, endurance, flexibility and balance. Final relaxation is time to rest the mind, and allow the body to assimilate the benefits of practice. After class, people often feel a calm sense of well-being. This spills over into our everyday lives. Transformation is an ongoing process we all participate in.
