

BIOLOGY FOR NON-MAJORS
Biology 112L-501
Spring 2018

Syllabus

Instructor:	Dr. James Farslow
Classroom:	Arts & Sciences, Room 135
Class hours:	Monday, 12:00 – 2:45
Office:	Academic Office, Arts & Sciences, ask Receptionist
Office Hours:	Monday, 9:45 to 10:15 Wednesday, 12:00 to 1:00 pm, or by appointment (email me)
Campus Phone:	505-925-8634 (only during office hours)
E-mail:	jfars@unm.edu (best way to contact me)

Course Description (from course catalog): An optional laboratory which may be taken concurrently with or subsequent to BIO110. One 3-hour lab per week including plant and animal diversity, techniques and investigation of current issues. Meets New Mexico Lower Division General Education Common Core Curriculum Area III: Science (NMCCN 1114). Pre- or corequisite: 110.

Student Learning Objectives: At the completion of this course students will be able to:

1. Describe the scientific method and the characteristics of life;
2. Describe the processes of osmosis and diffusion;
3. Identify cell structures and their function, and describe photosynthesis;
4. Describe DNA structure, the processes of mitosis and meiosis, and how these relate to inheritance;
5. Describe how the processes of mutation and natural selection result in evolution;
6. Describe the interactions of organisms with each other and the environment.

Text: “Thinking About Biology: An Introductory Laboratory Manual”, Mimi Bres and Arnold Weissnar, 2016, Pearson Education, Inc (ISBN 978-0-134-03316-7). Bring the lab manual to class every week.

Course Webpage on learn.unm.edu (Blackboard): Course information including this syllabus and grades will be available via learn.unm.edu. I will also send out emails to the class periodically. Students should check email at least every couple of days.

Attendance Policy: Attendance will be taken each class as per UNM-Valencia policy. Students risk being dropped if they have more than four (4) absences. Students are responsible for finding out what they missed in class. Class begins at 12:00 pm. At 12:05 students will be considered late. Students who are late or absent will receive a **zero** for any quiz or exam administered that day. **Do not be late for exams or quizzes. You cannot makeup exams.**

Exception to the above with respect to quizzes: Contact me if you have a valid excuse (illness, death in the family, car accident, etc.) to arrange a make-up quiz, but you will need to provide evidence (doctor's note, etc.). Busy traffic is not an excuse. It is the prerogative of the instructor to decide what is a valid excuse.

Academic dishonesty (from the UNM Catalog): "Each student is expected to maintain the highest standards of honesty and integrity in academic and professional matters. The University reserves the right to take disciplinary action, including dismissal, against any student who is found responsible for academic dishonesty. Any student who has been judged to have engaged in academic dishonesty in course work may receive a reduced or failing grade for the work in question and/or for the course.

Academic dishonesty includes, but is not limited to, dishonesty on quizzes, tests or assignments; claiming credit for work not done or done by others; hindering the academic work of other students; and misrepresenting academic or professional qualifications within or outside the University."

Copying and pasting material from a webpage into your homework assignment is plagiarism. The same method you use to look up the information on the internet is probably the same method I will use to check if you copied it. All I need to do is Google your answer, and yes, I do check.

This also applies to anyone who allows someone to cheat off of them.

Electronic Device Usage: Students may use laptops or tablets to take notes. However, students will not use these devices for checking e-mail, web surfing, or other non-class activities during class. Cell phones will be silenced during class. No calling, talking, or texting during class. Absolutely no use of cell phones during quizzes or exams, or students will receive a zero for that quiz or exam.

Student Behavior: Students will comport themselves as adults in an academic setting. Please do not engage in private conversations or act in an otherwise disruptive manner during class, or you will be asked to leave. If you need to ask the person next to you a question, make it short, do it quickly and quietly. I expect students to extend this courtesy to each other as well.

No vaping in class.

Lab Policies: No food or drink is allowed in the lab. Students are responsible for cleaning up their areas by the end of class. If students leave a mess, they will lose points from the lab. Keep in mind this is a lab and you may be handling things you don't want on your skin. Long pants, closed shoes, and long sleeves are recommended.

Quizzes: Quizzes will be fill in the blank assignments that shouldn't take more than 10 or 15 minutes at the beginning of specific classes (see schedule below). The quizzes will cover

material since the last quiz. Students should make sure to put their name on the quiz to receive credit. There will be 5 quizzes, and the lowest grade will be dropped. The quizzes are worth 25 points each.

Assignments: Assignments are from the lab manual and will be filled in as activities are completed. Complete the self-test outside of class. The self-test will be torn out, and turned in stapled together during class the following week. Make sure your name is on the assignment to receive credit.

Exams: There will be a midterm and a final exam. These exams will be practical exams. The students will answer questions at stations around the lab. Students will begin at specified stations with an answer sheet, they will have one minute to answer the question (fill in the blank), and then they will move together to their next station (“rotate”). After everyone has been to all the stations, the students will have the opportunity to go back to stations. There is no talking among students during practical exams.

Grading Breakdown:

Quizzes (4 best @ 25 points each)	100
Assignments (13 @ 10 points each)	130
Midterm Exam	100
Final Exam	100
Total points	430

Final grades will be awarded based on the percentage of points earned relative to total points.

Note: Please do not think at the end of the semester that if you have a 60% going into the final exam, you only need to make an 80% on the final to pass the course. **This is incorrect.**

Remember the final exam is only 100 points out of 430. If you have a 60% for the course going into the final, you will not be able to pass the course, even if you get a 100% on the final. If, on the other hand, you make 70% or higher on all coursework through the semester, you will pass.

Grade	From	To
A+	98	100
A	93	97.99
A-	90	92.99
B+	88	89.99
B	83	87.99
B-	80	82.99
C+	78	79.99
C	70	77.99
D	60	69.99
F	0	59.99

Students with Disabilities: If you have a documented disability, please provide me with a copy of your letter from Equal Access Services as soon as possible to ensure that your accommodations are provided in a timely manner.

Title IX Statement. In an effort to meet obligations under Title IX, UNM faculty, Teaching Assistants, and Graduate Assistants are considered “responsible employees” by the Department of Education (see pg 15 -<http://www2.ed.gov/about/offices/list/ocr/docs/qa-201404-title-ix.pdf>). This designation requires that any report of gender discrimination which includes sexual harassment, sexual misconduct and sexual violence made to a faculty member, TA, or GA must be reported to the Title IX Coordinator at the Office of Equal Opportunity (oeo.unm.edu). For more information on the campus policy regarding sexual misconduct, see: <https://policy.unm.edu/university-policies/2000/2740.html>.

Course Outline

Week	Date	Exercise	Activities	Quizzes
1	15-Jan	Martin Luther King, Jr Holiday - No class		
2	22-Jan	#1 Scientific Method	1, 2, 3, 4, 5, 6	
3	29-Jan	#7 Organic Molecules	1, 2	
4	5-Feb	#2 Microscopy; #3 Cells	1, 3, 4, 5, 6; 1, 2, 3, 4	Quiz 1
5	12-Feb	#4 Diffusion and Osmosis	1, 2, 3, 4	
6	19-Feb	#6 Photosynthesis	1, 3	Quiz 2
7	26-Feb	#8 Enzymes	1, 3	
8	5-Mar	Midterm Exam		
9	12-Mar	Spring Break		
10	19-Mar	#9 Molecular Genetics	1, 2, 3, 4, 5	
11	26-Mar	#10 Mitosis; #11 Meiosis and Genetics	1,2,3,4;1,2,3,4,5,6,7	Quiz 3
12	2-Apr	#12 Human Genetics	1, 2, 3, 5	
13	9-Apr	#21 Ecosystems	1, 3	Quiz 4
14	16-Apr	#22 Population Ecology	1, 2, 3	
15	23-Apr	Review for Final Exam		
16	30-Apr	Final Exam		Quiz 5

** Instructor reserves the right to make required changes during the course.
