Course Communication	<p>Effective, ongoing communication is a key element of success in the nursing program. Instructors and staff communicate with students via email when not in class. Students need to check their UNM and Blackboard email accounts regularly. Full-time nursing instructors have voice mail, and communication should take place directly with your instructor. Full-time instructors hold scheduled office hours as posted in their syllabus and outside of their offices, and students may schedule conferences as needed. In addition, there is student representation on the nursing faculty committee, and the representatives are responsible for communicating pertinent information to classmates. Part-time faculty will identify their preferred method for communication to the students.</p>

KAPLAN POLICY

The UNM-Valencia Nursing Program has adopted a comprehensive assessment and review program from Kaplan Nursing. The intent of this program is to provide students with the tools they need to be successful in the nursing program and on the NCLEX-RN. The Kaplan program is 10% of the student's grade in all nursing courses except HCHS125, NURS242, and NURS110. In NURS242, the Kaplan component is 35% of the course grade and there are no Kaplan points in HCHS 125 and NURS 110.

Kaplan also provides both focused review (practice) and integrated (proctored tests). The focused review tests are designed for student self-assessment and provide students with immediate question feedback and rationales. Instructors will direct the students to the appropriate focused review tests in each course. In order to receive credit, students must complete the focused review tests as assigned and during the designated time period specified in individual course syllabi. In order for the student to take the Kaplan integrated test, each student must have completed the assigned online focused review test(s). Grade points for focused review tests are awarded based on the score achieved. The 10% of each course grade allotted to Kaplan will be derived from four sources and totaled for a possible 100 points

Focused review tests are assigned by course faculty. Tests taken at times other than when they are assigned will mean no points are awarded for the test.

KAPLAN NCLEX-RN® Secure Predictor Exam

As a part of NURS 242, the student is required to take the Kaplan NCLEX-RN Secure Predictor Exam and achieve a minimum cut score of 65% in a maximum of 2 attempts to achieve full points. The purpose of this test is to predict student readiness for the NCLEX-RN. The full policy on Kaplan point distribution in NURS 242 is in the course syllabus.
