

# Wi-Fi on Valencia Campus and Valencia Campus Workforce Training Center

## Access to **Valencia-Secure** and **Valencia-Guest (unsecure)**

Valencia Campus credentials allows login to campus computers and connection to secure Wi-Fi on your device.

**For Valencia credentials** you must have a UNM Email address\* prior to visiting Technology Support Help Desk

*\*Note: the first part of your UNM email address (NetID) will be your username*

**To obtain Valencia credentials:** Please visit Technology Support Services Help Desk counter, and **Bring your Student ID or valid picture ID** we are located in the Learning Resource Center next to the library

**Valencia-Secure** (secure & encrypted) requires Valencia Campus login credentials (username & password)

1. To connect: Click the wireless icon
2. Select Valencia-Secure and click **Connect** button
3. There will be a **popup** asking for username and password- enter your Valencia Campus credentials
4. Click Ok
5. When connection is successful **you can browse the Internet!**
6. If not successful double check your credentials or visit Technology Support Services Help Desk

**Valencia-Guest** (unsecure and no encryption) requires email address (no password)

1. To connect: Open your default browser (optional)
2. Click Wireless icon
3. Select Valencia-Guest and click Connect button
4. A webpage opens Click **Connect** button on web page
5. Another webpage opens Click **Advanced** button
6. Next webpage opens click the link [Continue to securelogin.arubanetworks.com \(unsafe\)](https://securelogin.arubanetworks.com)
7. Aruba login webpage opens Enter your Email address click the **Sign In** button
8. Last webpage opens and will close automatically or you can close it. **You are now connected to the Internet!**

### Another way you might connect to Valencia-Guest

1. open a default browser (optional)
2. Click Wireless icon
3. Select **Valencia-Guest** and click **Connect** button
4. You might get a webpage that says- **There is a problem with this website's security certificate**, there will be two links click on the link [Continue to this webpage \(not recommended\)](#)
5. The Aruba login page will appear - enter your email address and click the **Sign In** button
6. One last page will appear and automatically disappear, this means **You Are Connected to the Internet!**

### For assistance:

Technology Support Services Help Desk

Hours: **8 am – 5 pm, Monday – Friday**

Location: Learning Resource Center hallway counter next to the library

Phone: 505.925.8911

**\*\*Note: your UNM email password will *not* work to login to Valencia Campus computers and Secure Wi-Fi**

# Wi-Fi Access on Valencia Campus and Valencia Campus Workforce Training Center

## Valencia-Secure WI-FI requires Valencia Campus credentials

Click wireless icon, select Valencia-Secure, click Connect button, a login window will popup

Enter your Valencia Campus username & password click Ok  
Once connected, **browse internet!** Secure with encryption

Valencia Campus credentials: Your UNM email username (NetID) will be your Valencia Campus username. To acquire credentials (username & password) visit Technology Support Help Desk - Bring Student ID or valid photo ID

4. You will then be presented with a login page, Enter Email address and click the Sign In button or press enter

5. The last page that appears signifies that you have successfully logged in, it will disappear on its own or you can close it.

**You can now browse the internet!**

*Remember: Guest Wi-Fi is not secure and there is no encryption.*

## Valencia-Guest WI-FI

1. Click wireless icon, select Valencia-Guest, click Connect button

A webpage will appear, click Connect button on the page

2. Another webpage will appear, click Advanced button

3. Next webpage that appears – click the link [Continue to securelogin.arubanetworks.com \(unsafe\)](http://securelogin.arubanetworks.com)

Another way: click wireless icon, select Valencia-Guest, click connect button. A webpage opens, click link [Continue to this webpage \(not recommended\)](http://securelogin.arubanetworks.com)

Another webpage opens, Sign in with email address

Last webpage opens, and will automatically close

**You can now browse the internet!**
